

R4™ Multi-Purpose Framing and Decking Screws

Optimized Thread Length for improved clamping force. Grips tight!

Precision Fit Drive Technology reduces wobble and improves productivity. Faster & safer!

W-Cut Threads reduce torque required. Easy to install!

Fast Bite Tip starts fast with less force than the competition. No pre-drilling!

Faster drive for improved productivity!

We tested these Next Generation R4 Fasteners in real world conditions with Pro Installers.

Here's what they said...

"Drives like butter...no need to pre-drill"

"Draws boards together effortlessly"

"Reduces wobble, no worry about drive bit slipping out when working in tight spaces"
